On the Use of Experiences from Oil and Gas Projects in Other Applications

What can we learn from the Oil and Gas Industry?

DORIS

**MONITORING ROBOT
FOR OFFSHORE FACILITIES**

On the Use of **Experiences from Oil and Gas** Projects in Other Applications

Industry driven

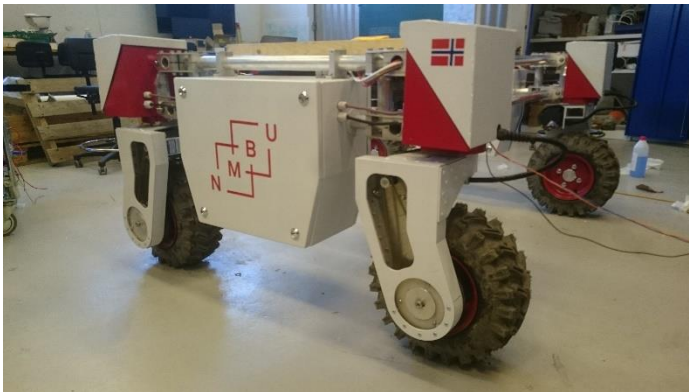

Research driven?

- Everything is possible – so many fascinating products!
- We just need someone to do it.
- (Someone to believe in it, need it, pay for it)

There is definitely a NEED

Show what is actually possible - get the industry on board

So many research-driven projects

We are missing one really big player (industry)

What can we learn from the Oil and Gas Industry?

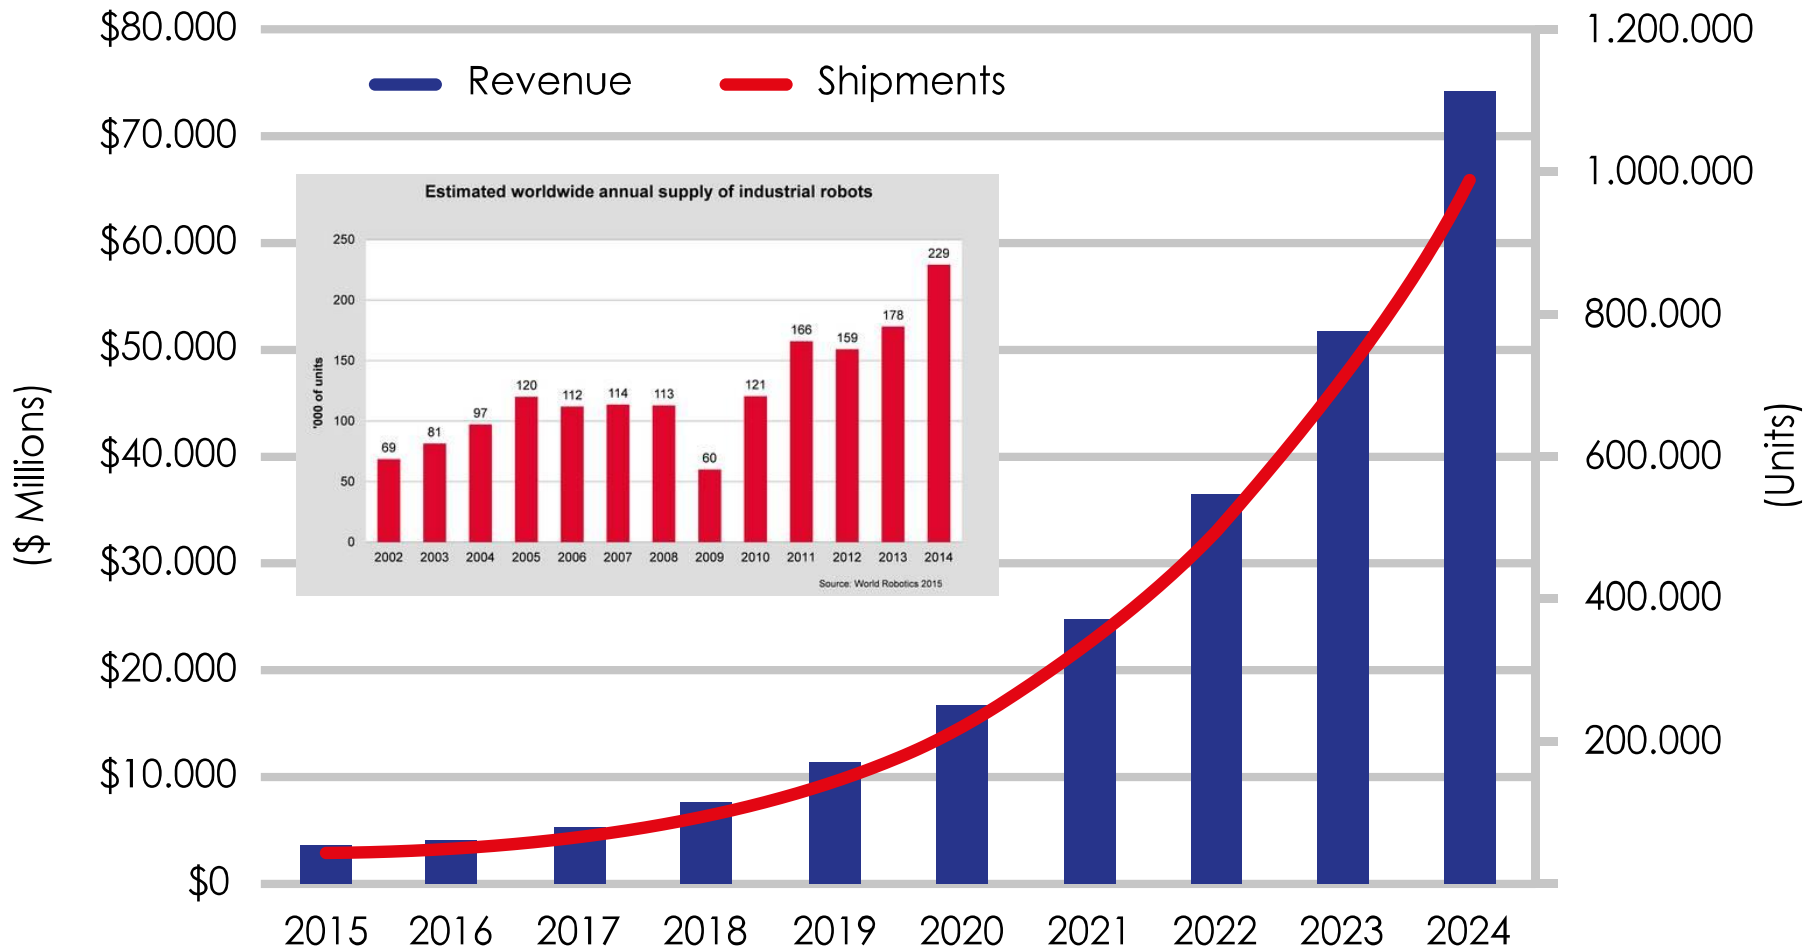

New technology
– unlimited possibilities

Show the potential (Tractica)

Agricultural Robot Revenue and Shipments, World Markets: 2015-2024

Thank you
