

Healthy Ageing Research Groningen

From fundamental mechanisms to clinical application

Erik Boddeke

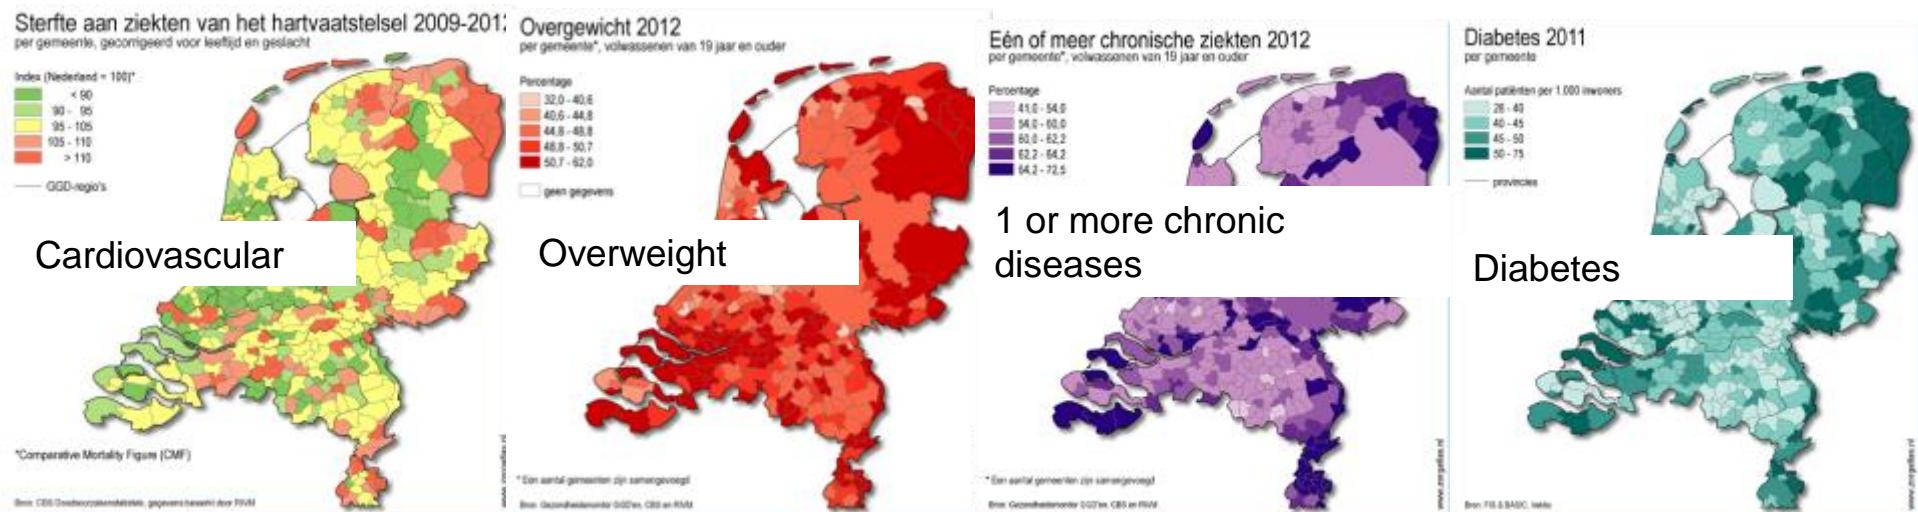

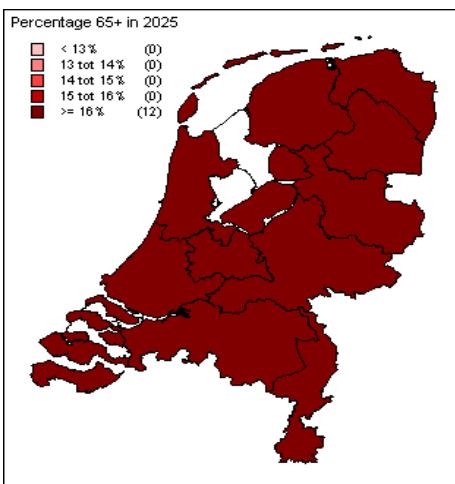

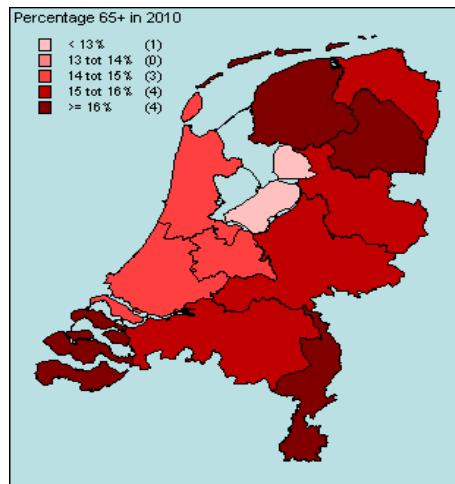

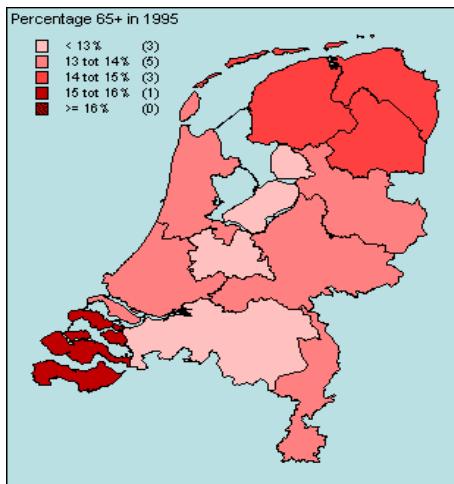

Dean of Research

Dept. Neuroscience

University Medical Center Groningen, The
Netherlands

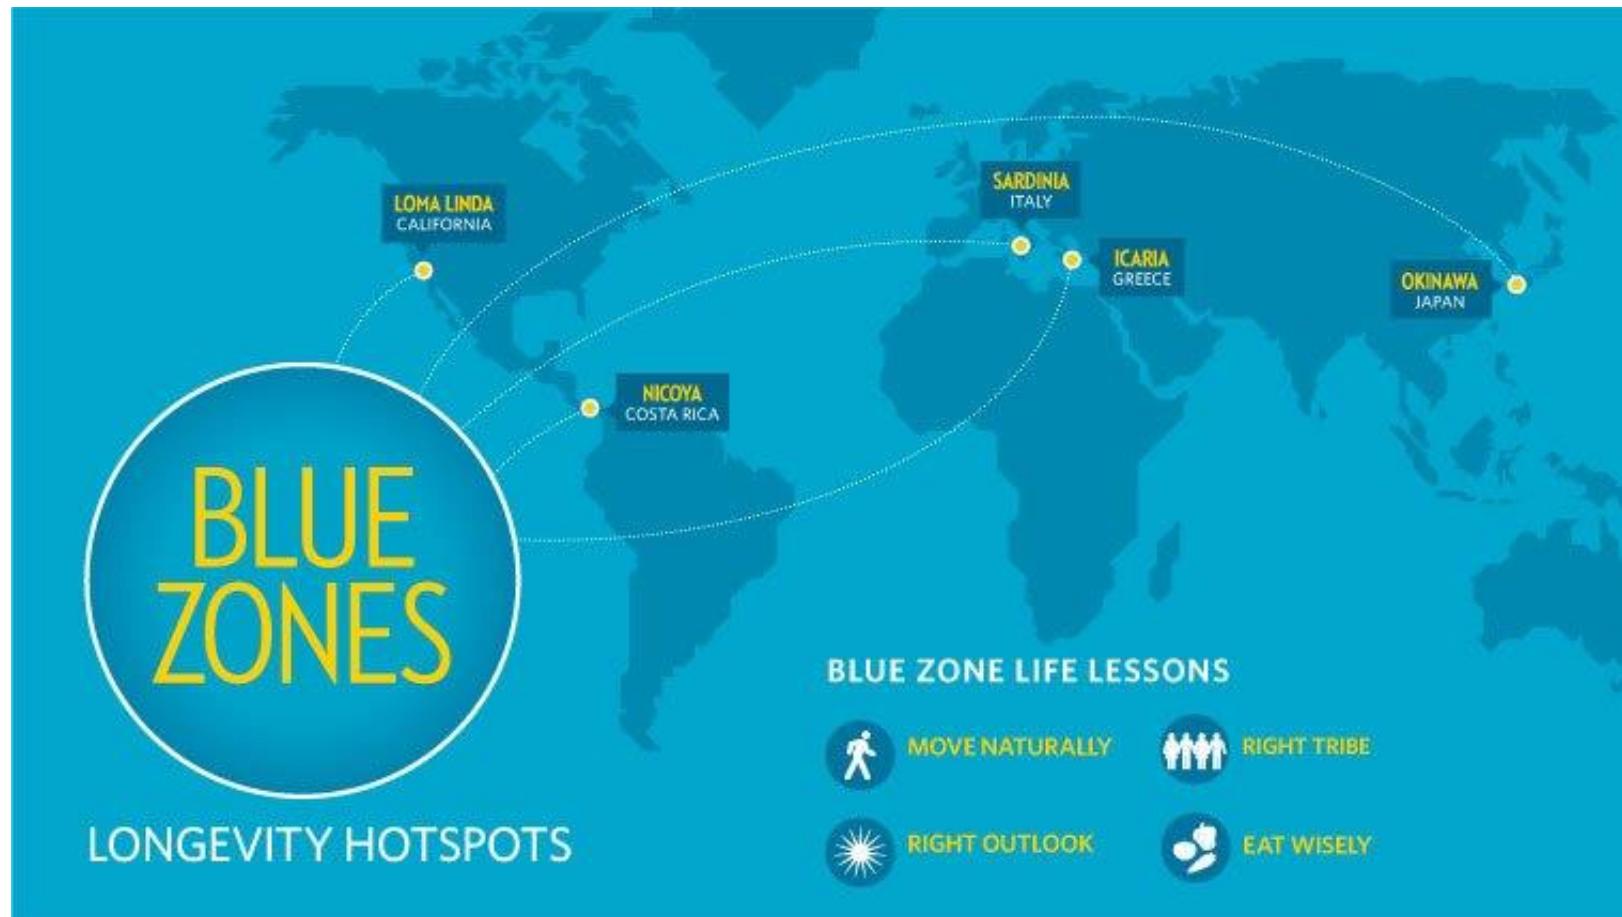

Healthy ageing is a challenge

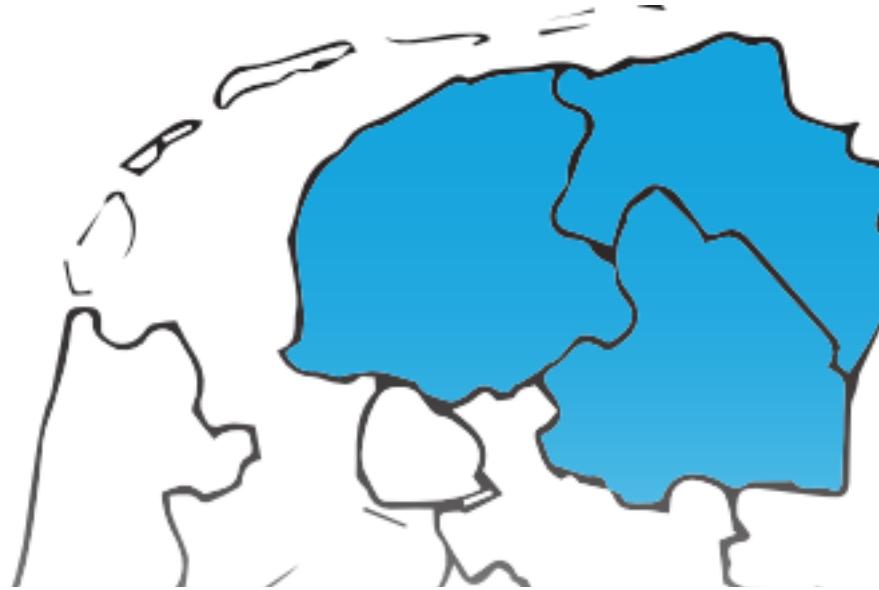

There are regions in the world where they do better

Our Ambition is a Man Made Blue Zone

We share this ambition with our regional partners in the Healthy Ageing Network Northern Netherlands

Health literacy
Food consumption
Physical activity and living conditions
Monitoring: LifeLines

healthy ageing translational research

ERIBA

lifelines

European Research Institute for the Biology of Ageing

- 13 research groups
- 150 researchers
- 4500 sq mtrs
- Opening November 2013
- Total investment 50 M€

The mission of ERIBA is to better understand what causes ageing.

ERIBA

Skoltech
Skolkovo Institute of Science and Technology

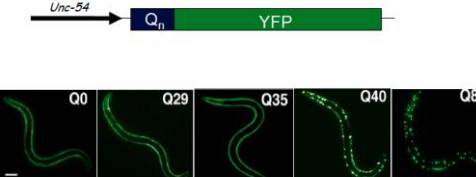

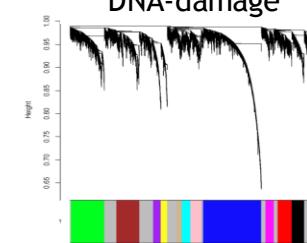

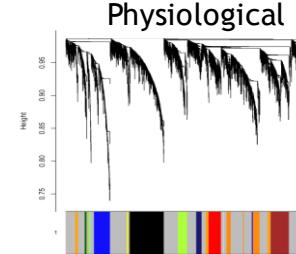

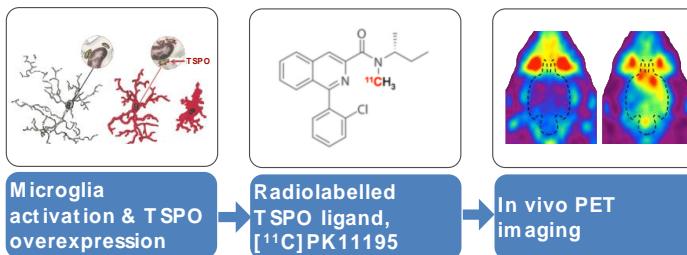

Translational Research

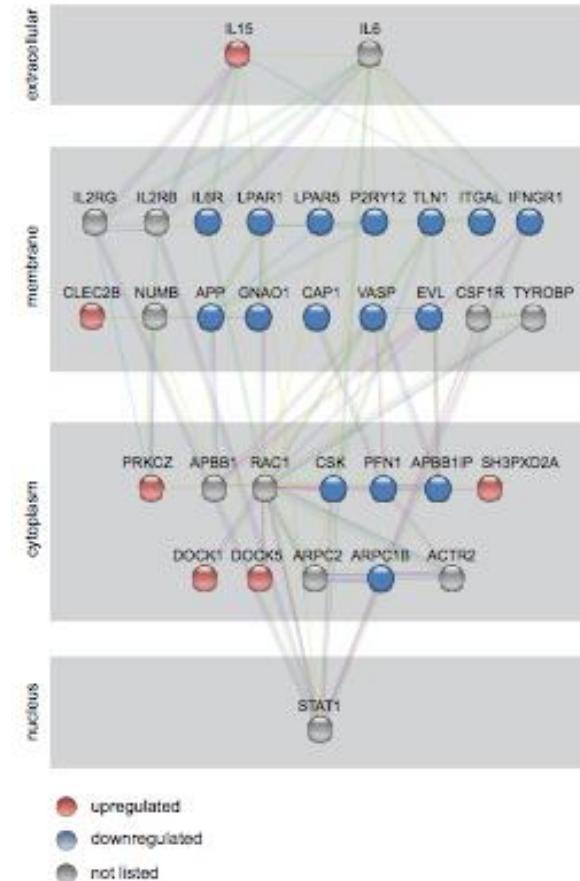

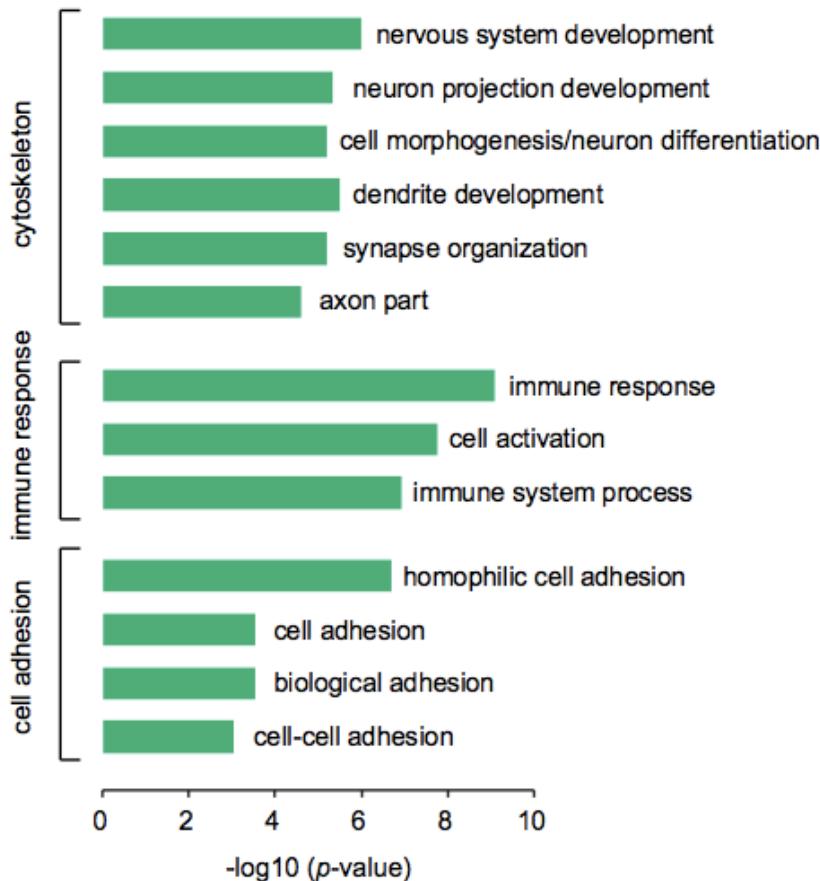

Protein aggregation in *C. elegans*

Ageing models

human brain macrophage transcriptome: age

Collaboration: Prof. S.K.N. Marie, *Department of Neurology, Laboratory of Molecular and Cellular Biology, LIM15, School of Medicine, University of São Paulo & Center for Studies of Cellular and Molecular Therapy*

Population research

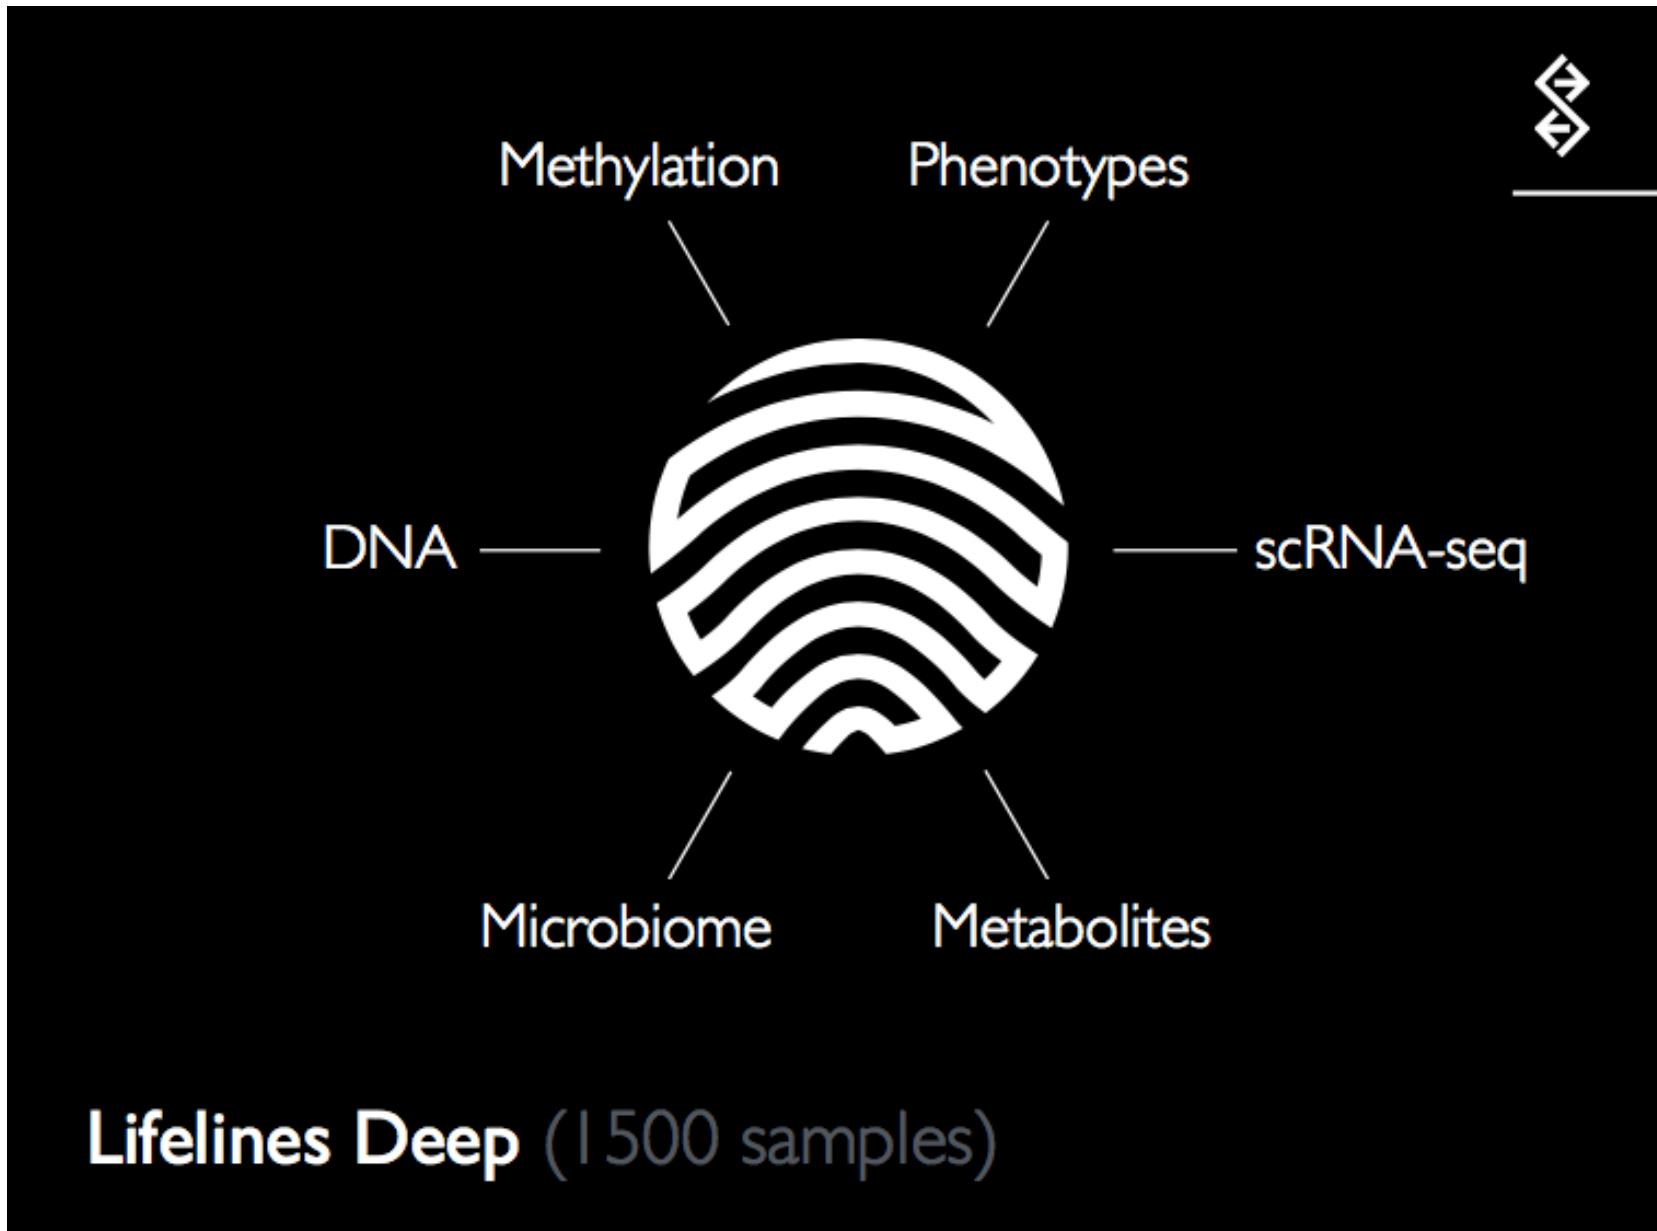

- Northern Netherlands
- 167.729 participants
- Follow-up for at least 30 years
- 3 generations
- LifeStore

LifeLines

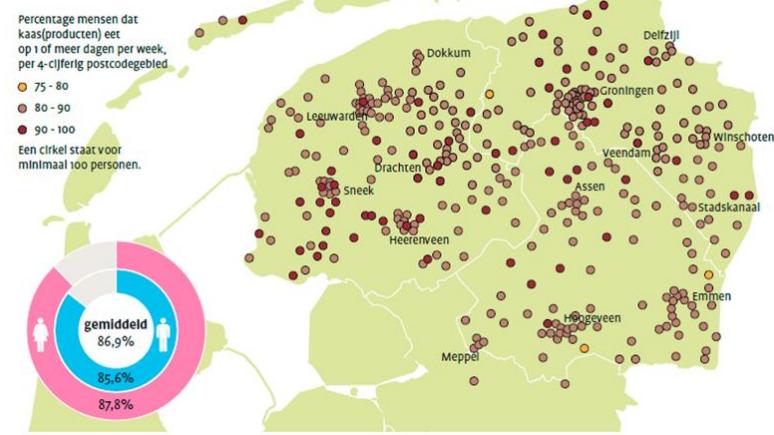

- Collection data and biomaterial
- >165.000 participants
- 30 years follow-up
- 3 generation design
- General population
- Research infrastructure
- Worldwide available

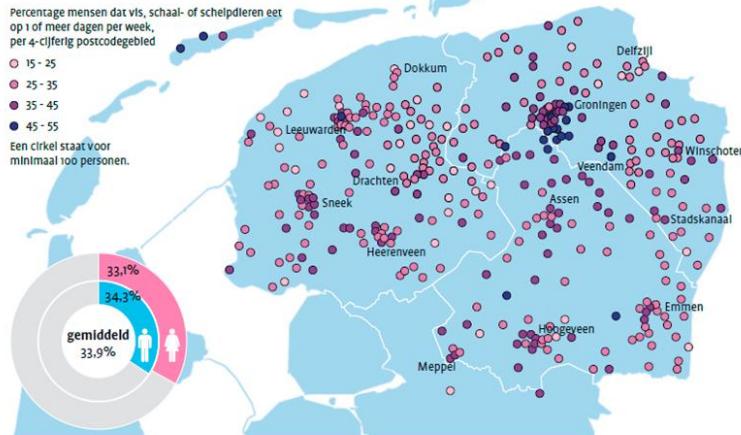

Lifelines: detailed life style monitoring

4 Consumptie van kaas

Consumption of cheese

5 Consumptie van vis

Consumption of fish

Lifelines food consumption data: 3-generations

**Illumina Global Screening
Array (€40 per individu)**

End 2017:

- Genotype data available for 80.0000 lifelines participants

Big Data in Health @ Groningen

- Lifelines
 - Largest Dutch population based study
- Target/ERCET
 - Big Data computing infrastructure
- Leading role in national and European biobanking collaborations
 - BioSHaRE
 - BBMRI
 - Maelstrom

Healthy ageing in the clinic:

UMCG Lifestyle navigator: lifestyle check; advice/ advisors

Embrace: integrated care model for older adults

Peri-surgery fitness

Biomarkers for age-related diseases

Centres for Parkinson-, AD patients

Etc.. Etc..
