

DANIEL MARTINS-DE-SOUZA
ON BEHALF OF
PROF. MUNIR S. SKAF

OFFICE OF THE
DEAN OF RESEARCH

UNIVERSITY OF CAMPINAS
(UNICAMP)

ARE MALARIA, CHAGAS DISEASE AND
LEISHMANIASIS NEGLECTED DISEASES?

NOT AT UNICAMP!

NEGLECTED DISEASES

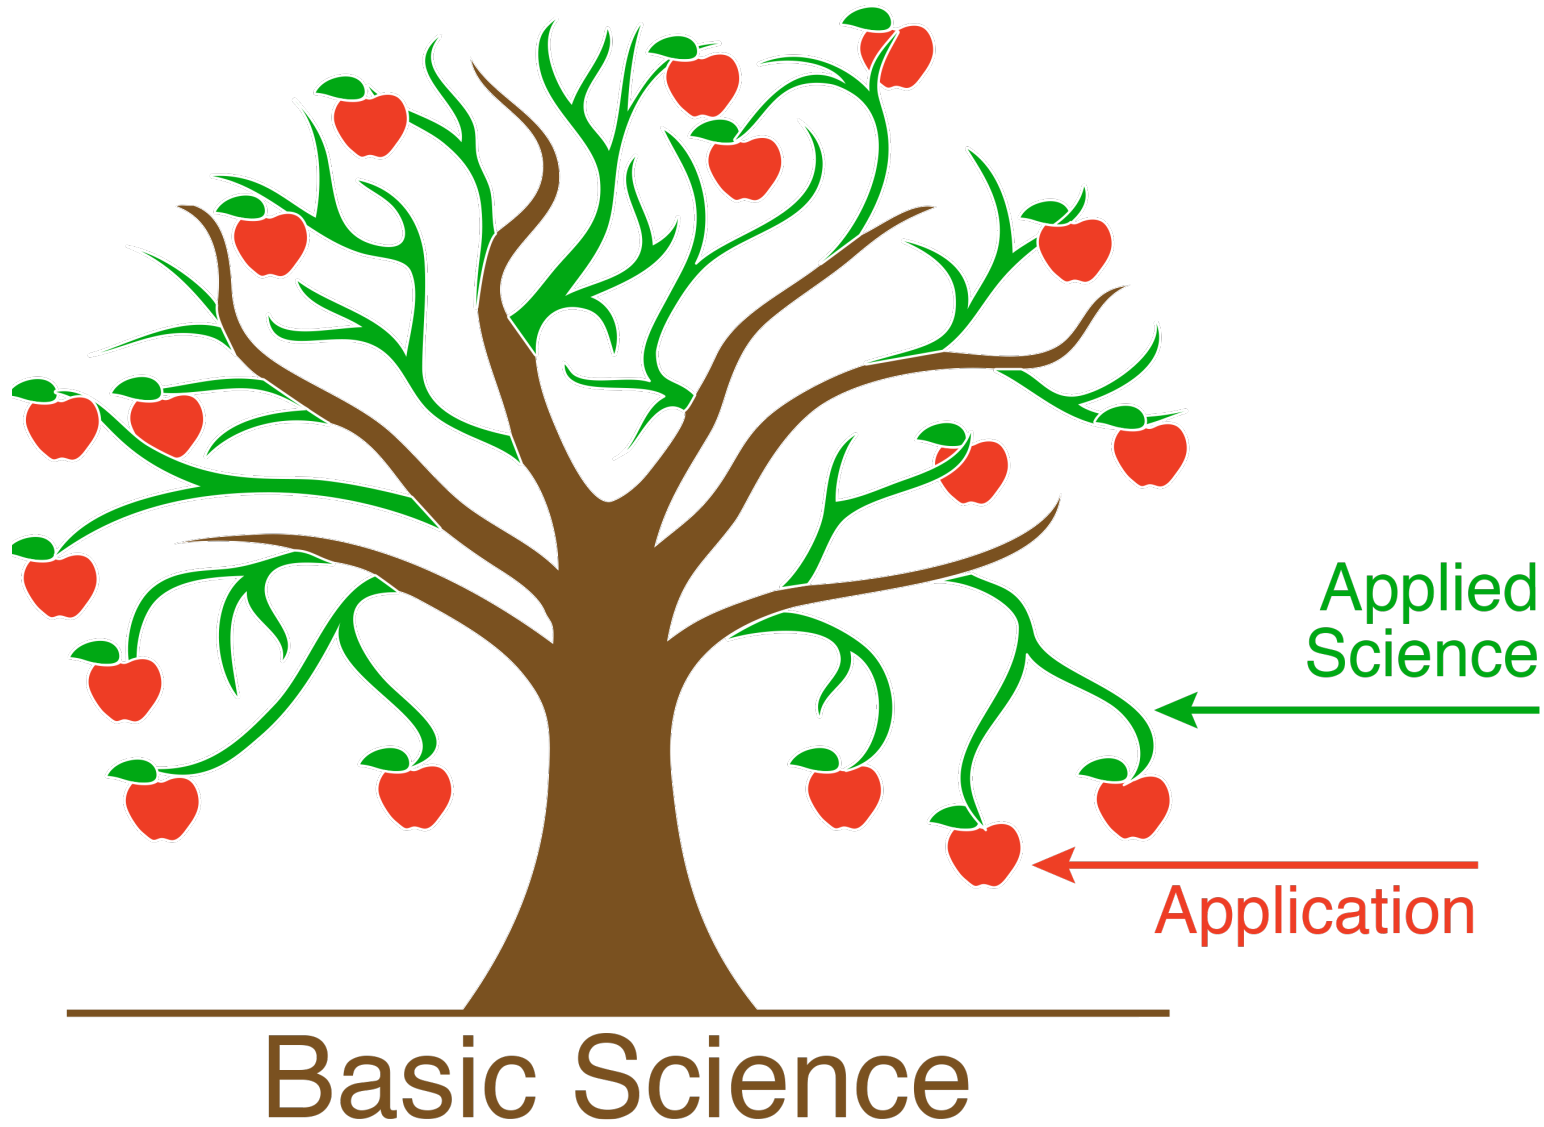

World Wide

- Chagas Disease: 8 million
- Leishmaniasis: 12 million (*1 billion in endemic areas*)
- Malaria: 216 million (*cases in 91 countries*)

NEGLECTED DISEASES

- 30 projects funded currently funded
- 125 projects previously funded
- Mostly basic science

APPLYING
WHAT
WE HAVE
LEARNED

THE PERFECT CHEMISTRY

MVV and DNDi + UNICAMP/USP + FAPESP

- MVV and DNDi
- USP
- UNICAMP: one of the finest schools on Synthetic Chemistry
 - Developing new drugs
 - Translational Strategies
- FAPESP: Recognizing the importance

CONGRATULATIONS
&
THANK YOU
